- Intro to Computer Science I Honors (C++)
- Intro to Computer Science II (C++)
- Algorithm Analysis & Data Structures (C++)
- Numerical Algorithms (C++)
- Database Processing (SQL, some Mongo)
- Information Security
- Assembly Language (MIPS)
- Computer Architecture and Organization
- Theoretical Foundations of Computing
- Software Engineering I
- Software Engineering II (C#, SQL, ASP .NET, HTML, CSS)
- Operating Systems
- Organization of Programming Languages (Java, Python, Fortran, Haskell)
- Social Implications of Computing Honors
- Scripting Languages (HTML, PHP, SQL)
- Programming in Java
- Calculus I, II Honors, & III Honors
- Discrete Mathematics
- Statistical Methods
- Linear Algebra
- Honors Thesis entitled The Role of Women in Technology and How to Encourage Young Girls to Enter the Field

Work Experience

York County GIS

2017 Spring Semester

Intern

- Created a story map using ArcGIS based on road data from York County
- Map was to be presented to the public to provide information regarding road projects that were about to get underway

Ally Data Analyst

Summer 2018

Intern

- Created a Power BI Dashboard using Splunk data to determine the priority of incidents on the Sustain team
- Used batch scripts to automatically gather data from Splunk and move the file once per day
- Presented project to multiple teams and the CIO
- Shadowed multiple development teams including a back-end team and a front-end team
- Worked in an Agile environment and attended Agile ceremonies

Ally API Developer

July 2019 - present

Full-Time

Skills

- Written and oral communication skills
- Problem-solving and critical thinking skills
- Leadership skills
- Experience with C++, Python, Java, C#, HTML, CSS, MIPS Assembly Language, PHP, SQL, Linux, UNIX, GitHub, Power BI, Splunk, Excel, PowerPoint, Word
